## Oral communications, Posters and Live injections

In-depth analysis of the latest research, poster contributions, and live experiences from physicians and stakeholders worldwide. During live injection sessions, attendees will have the opportunity to witness and interact with live demonstrations on patients broadcast directly from our clinical and training center.

## Workshops and company activities

Opportunities for knowledge-sharing, discussing research findings, and developing new perspectives in the field. Distinguished experts will lead classroom sessions or live injection demonstrations, addressing crucial topics and creating opportunities for collaboration.

## Expo and networking area

The hub of innovation and opportunity. A dynamic environment where professionals, facility managers, and corporate representatives come together to share knowledge, discover new products, and forge meaningful connections and business relationships.

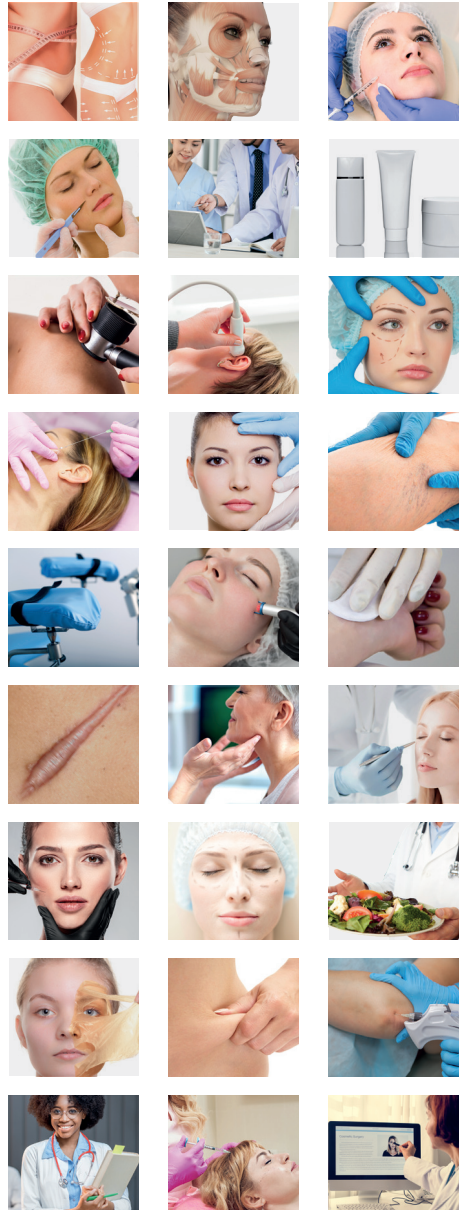

## Topics

- Aesthetic gynecology
- Biostimulation and biostructuring
- Biostimulation threads
- Clinical anatomy
- Combined treatment protocols
